

Smart Meter Opt-Out Application

It is important that you understand the costs and conditions of opting out of smart metering. If you have not already done so, please call us at 1(877) 434-4100 before submitting this application.

This application must be completed by customers choosing to opt-out of smart metering.

I understand that, by opting out, I will not receive the benefits of a smart meter, including:

- Automated meter readings, which do not require a representative to visit my home.
- Access to detailed information on my home's energy use and personalized tips that help to reduce energy use and manage costs.
- Faster outage restoration.

I also agree to pay the following charges:

- A meter reading charge of \$10 per month to opt out of one service from O&R, \$15 per month to opt out of both electric and gas services.
- A fee of \$45 per electric meter, \$55 per gas meter, or \$90 for both services if I choose to opt-out after smart metering has been installed. I under-

stand that these charges will only be waived if O&R does not provide me with advanced notice of the smart meter installation.

Applicant requests that O&R not install, or, if already installed, remove an electric smart meter and/or a smart gas module at the below service address and install a non-communicating metering device approved for installation by the Commission. Applicant understands and agrees to provide O&R access to the metering equipment and that the installation of a non-communicating meter may cause the Applicant to incur costs for which Applicant is solely responsible.

Applicants who opt out of smart metering will be subject to:

Access to Premises

Customers who opt out of smart metering must provide reasonable access to O&R for meter reading and meter maintenance. If a customer who opts out of receiving a electric smart meter or smart gas module fails to provide access for

two months in any 12-month period, the customer will be required to: (a) pay the company to relocate the metering equipment to an external location; or (b) permit the company to reinstall a electric smart meter or smart gas module.

- Beginning in 2016, the one-time meter change-out fee will not be charged to a Residential Applicant that files an application and agreement with O&R within 30 days of the meter(s) installation without prior notification from O&R.

- The one-time meter change fee will not be charged to an Applicant who files an application and agreement with O&R within 30 days of the receipt of O&R's letter notifying Applicant of its intent to install smart metering equipment.

- An Applicant who elects to switch back to smart metering after requesting the removal of such a meter will be reassessed the meter change-out fee described above.

Applicant agrees to provide access to metering equipment and to pay all approved fees associated with the installation and operation of a non-communicating meter. Fees are subject to change per Commission rulings/approvals.

Please check the service(s) from which you are requesting to opt-out of and fill out the service address below.

Electric Service Gas Service

If you do not indicate which services you are opting out of, you will be opted out of all services provided by O&R.
